

## Special Issue

# Novel Approaches for Improving Food Quality

### Message from the Guest Editors

This Special Issue is devoted to applying new approaches and solutions to improve food quality. Food quality and the factors that influence it is a broad concept. Both raw materials used in food production, as well as technological processes and innovative solutions, are important. The production of high-quality food has a huge impact on the health of society. The authors should demonstrate that the research they present concern solutions that improve food quality, with particular emphasis on the beneficial effects of these solutions on the final product. Consumers are becoming more and more aware and interested in purchasing high-quality products, so we believe that the participation of leading scientists able to present the latest solutions is really important.

---

### Guest Editors

Dr. Agnieszka Ciurzyńska

Department of Food Engineering and Process Management, Institute of Food Sciences, Warsaw University of Life Sciences, SGGW, 159c Nowoursynowska St., 02-776 Warsaw, Poland

Prof. Dr. Monika Janowicz

Department of Food Engineering and Process Management, Institute of Food Sciences, Warsaw University of Life Sciences, Warsaw, Poland

---

### Deadline for manuscript submissions

closed (1 September 2023)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
