Bayesian Statistics on Artificial Intelligence: Theory, Methods and Applications

Message from the Guest Editor

We are inviting submissions to the Special Issue on Bayesian Statistics on Artificial Intelligence: Theory, Methods and Applications. Bayesian statistics are based on Bayesian inference that consists of prior, likelihood, and posterior distributions. Using Bayesian inference, Bayesian learning represents the update of human beliefs about events as a probability distribution. Thus, Bayesian statistics is one of popular fields in artificial intelligence (AI). Bayesian neural networks and Bayesian deep learning are the results of Bayesian statistics applied to AI. We know that Bayesian statistics are making various contributions to more AI domains. So, in this Special Issue, we invite submissions on diverse methods and applications of Bayesian statistics on AI. We welcome not only theoretical studies on Bayesian statistics for artificial intelligence but also various applied studies.

Guest Editor

Prof. Dr. Sunghae Jun

Department of Big Data and Statistics, Cheongju University, Chungbuk 28503, Korea

Deadline for manuscript submissions

closed (20 July 2023)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
