

Special Issue

Feature Review Papers in Applied Physics

Message from the Guest Editors

We now stand almost one year after the end of the COVID-19 pandemic with the will to continue our pursuit of the physical law in science and of innovation in engineering. This Special Issue focuses on the recent advances in applied physics, and aims to collect high-quality systematic reviews in this field. All applications of physics aiming to solve practical problems are included. All articles that employ physics or present physics research focused on (i) developing new methods and/or technologies or (ii) solving engineering problems are welcome. The topics of interest for this Special Issue include, but are not limited to, astrophysics, atmosphere, biophysics, cardiology, complex systems, disaster mitigation, earthquakes, geophysics, lasers, materials, medicine, optics, photonics, plasmas, reliability, safety, security, semiconductors, and spectroscopy. We hope all published papers will be widely read, highly influential and promote the most recent advances in the field.

Guest Editors

Prof. Dr. Nicholas Vassiliou Sarlis

Section of Condensed Matter Physics and Solid Earth Physics Institute,
Department of Physics, National and Kapodistrian University of Athens,
Panepistimiopolis Zografos, 157 84 Athens, Greece

Dr. Stavros-Richard G. Christopoulos

Department of Computer Science, School of Computing and
Engineering, University of Huddersfield, Huddersfield, UK

Deadline for manuscript submissions

20 September 2025

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
