

Special Issue

Applied Research in Dental Implantology and Prosthodontics

Message from the Guest Editors

Applying research evidence in clinical dental practice is often challenging. Prioritizing future research requires relying on the available evidence and overcoming the limitations of previous research, which forms the basis of the evidence-based research approach. This Special Issue focuses on applied research in dental implantology and prosthodontics, including the identification of clinical questions whose evidence is lacking, weak, contradictory, or inconsistent with the available guidelines. Emphasis is placed on applying evidence in clinical practice. Therefore, all studies on implant-prosthodontic therapy that may bring additional value to the available body of evidence will be considered for publication. Studies assessing specific practices, experiences, resource availability, salivary biomarkers, biotoxicity, new approaches or technologies, and effectiveness, balancing benefit and harm or cost and feasibility of an intervention, or discussing patient perspectives on relevant topics in implant-prosthodontic therapy are welcome.

Guest Editors

Dr. Tina Poklepović Perićić

Department of Prosthodontics, Study of Dental Medicine, School of Medicine, University of Split, 21000 Split, Croatia

Dr. Nikolina Lešić

Department of Dental Medicine, Faculty of Dental Medicine and Health, J.J. Strossmayer University of Osijek, 31000 Osijek, Croatia

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
