

Special Issue

Vulnerability in Dentistry: Prevention and Treatment

Message from the Guest Editors

Answers to the questions around the interception and treatment of dental problems in vulnerable patients are increasingly becoming a necessity. From pediatric to adult age, oral health management of special-needs patient must make use of dedicated medical staff and new methods for early diagnosis and treatment of affected hard and soft tissues and facilitate access. The interventions and actions taken against this population are connoted as “positive discrimination” or as actions that intend to limit the discrimination of care and combat situations of social and health vulnerability. This Special Issue is aimed at applied research on the management of vulnerable patients both in terms of application of new therapies and materials and in the adaptation of techniques already consolidated but which enable or facilitate access to dental care and treatment itself. Research articles, review articles, as well as short communications are invited.

Guest Editors

Dr. Denise Corridore

Dr. Gianni Di Giorgio

Prof. Dr. Iole Vozza

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
