

Special Issue

Emerging Industry – Promoting Human Performance and Health

Message from the Guest Editor

This Special Issue aims to collect quality scientific contributions on the emerging industry of human performance and health promotion. To augment the readership of this Special Issue, we are working in collaboration with the [Information Technology and Applications Conference 2022 – ITAC 2022](#) to be held in [China University of Technology](#), Taipei, Taiwan on March 16, 2022. The best papers selected from this conference will be invited to submit an extended version for possible publication in this Special Issue. We also welcome contributions (research and review articles) covering a broad range of topics on emerging industry and human performance and health promotion, including (though not limited to) the following:

- Applied industrial technology
- Innovation and technology management
- Renewable energy
- Artificial intelligence
- Internet of things
- Industry 4.0
- Sustainable development
- Local featured agriculture
- Agricultural technology
- Food security
- Medical education

Guest Editor

Prof. Dr. Peng-Yeng Yin

Information Technology and Management Program, Ming Chuan University, Taoyuan City 333, Taiwan

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
