Special Issue

Recent Advances in Energy Efficiency of Buildings

Message from the Guest Editor

The Open Access journal *Applied Sciences* is currently running an important Special Issue titled "Recent Advances in Energy Efficiency of Buildings". This Special Issue is devoted to publishing papers that analyze the most significant and cutting-edge research in solutions that contribute to energy efficiency in buildings, for example: new construction materials, design of high-performance building envelopes, development of model for energy conservation in building design, or advances in sustainable heating and cooling system, among others. Keywords:

- sustainable building
- energy efficiency
- buildings
- energy consumption

Guest Editor

Prof. Dr. Montserrat Zamorano

Department of Civil Engineering, University of Granada, 18071 Granada, Spain

Deadline for manuscript submissions

closed (25 January 2022)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized,
researchers may lose themselves in the deep forest of
the ever increasing number of subfields being created.
This open access journal Applied Sciences has been
started to link these subfields, so researchers can cut
through the forest and see the surrounding, or quite
distant fields and subfields to help develop his/her own
research even further with the aid of this multi-
dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid
by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei
Compendex, Inspec, CAPlus / SciFinder, and other
databases.

Journal Rank:
JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1
(General Engineering)
