Special Issue

Applied Maritime Engineering and Transportation Problems 2022

Message from the Guest Editors

The intention of this Special Issue is to present selected papers, with broader scope and improved overall quality, from the Marine Traffic Engineering (MTE) Conference, a biannual series of conferences dedicated to marine traffic engineering as well as to present engineering applications, methods and models that concern the safety of navigation. The Special Issue will deal with all aspects related to marine traffic engineering and applied maritime transportation problems.

Guest Editors

Prof. Dr. Lucjan Gucma

Dr. Krzysztof Naus

Dr. Marko Perkovic

Prof. Dr. Cezary Specht

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
