

Special Issue

Feature Review Papers in Section Applied Biosciences and Bioengineering

Message from the Guest Editors

This Special Issue “Feature Review Papers in Section Applied Biosciences and Bioengineering” will collect review papers in all the areas of interest covered by Section “Applied Biosciences and Bioengineering” (https://www.mdpi.com/journal/applsci/sections/Applied_Biosciences_Bioengineering). We welcome multidisciplinary research in the following fields: advanced diagnostics, anatomy and histology, biochemistry, bioinformatics, biomaterials, biomechanics, biomedicine, biorobotics, biosensors, biosignal processing, biotechnology, cardiac bioengineering, clinical bioengineering, drug delivery, genetics, immunology and microbiology, life science, neural bioengineering, neuroscience, oncobiology, physiology, pulmonary bioengineering, tissue engineering, etc.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
