

Special Issue

Design, Development and Application of Fuzzy Systems

Message from the Guest Editor

Fuzzy systems have capability to handle numeric and linguistic data in the same framework. Additionally, fuzzy systems provide a flexible method of combining multiple conflicting, cooperating, and collaborating knowledge. This special issue will address some evolving research about the design, development, and application of fuzzy systems. Thus, this special issue will highlight novel, practical, and high-quality research regarding the design, development and application of fuzzy systems. A special emphasis will be on methods and approaches of design, development and application of fuzzy systems, hybrid fuzzy systems, artificial intelligence and fuzzy systems. Main application areas include, but are not limited to: business and finance, intelligent systems, sustainable development, socio cyber-physical systems, e-administration, environmental engineering, smart cities, healthcare, security, visualization, business process automation, manufacturing systems, logistics, telecommunication, infrastructure, and transportation, etc.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
