

Special Issue

Feeding and Nutrition in Fish Aquaculture

Message from the Guest Editors

Fish nutrition and feeding are crucial aspects to consider in optimizing aquaculture production. Advances in techniques, technologies, nutritional adjuvants, formulations, processing, and new ingredients facilitate the transition of the aquaculture sector toward more ecologically, economically, and biologically sustainable production, taking into account not only production systems but also their surrounding areas and stakeholders. The objective of this Special Issue is to present advances in feeding techniques and technologies, as well as in supplements, adjuvants, and ingredients, that enable the development of bioeconomically functional feeds that meet the current ecological, biological, and productive needs of the aquaculture sector. It seeks papers that explore innovative feeding techniques and technologies, such as biofloc, that have positive impacts on production systems, pre- and probiotics, ingredient processing, and new ingredients to enhance fish farming.

Guest Editors

Dr. Daniel Espinosa-Chaurand

Prof. Dr. Carlos Alfonso Alvarez-González

Dr. Eduardo Quiroz-Gúzman

Deadline for manuscript submissions

30 April 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
