Feature Review Papers in the Section ‘Green Sustainable Science and Technology’, Second Edition

Message from the Guest Editor

This Special Issue, “Feature Review Papers in the Section ‘Green Sustainable Science and Technology’, Second Edition”, will collect review papers in all areas of interest related to “Green Sustainability”. We welcome the submission of studies on multidisciplinary research in the following fields: Solid waste resource utilization; energization; resource recovery; the reuse of water resources; pyrolysis; photocatalysis; electrocatalysis; adsorption; advanced redox; environmental functional materials; and carbon capture and utilization.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
