

## Special Issue

# High-Performance Concrete: Preparation, Properties, Evaluation and Applications

### Message from the Guest Editors

We welcome submissions of recent research on the development and application of HPC. This call is open to a broad range of topics, including advancements in mix design, the use of supplementary cementitious materials (SCMs), durability assessments, mechanical performance improvements, and innovative testing methods. Contributions exploring cutting-edge technologies, sustainability strategies, and novel applications of HPC in modern construction are particularly encouraged. This Special Issue aims to provide readers with valuable insights into the latest developments in HPC, fostering innovation and practical advancements in the field.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
