

Special Issue

Human-Computer Interaction and Advanced Driver- Assistance Systems

Message from the Guest Editor

This Special Issue is dedicated to the application of human-machine interaction and advanced driver assistance systems in intelligent vehicles. In recent years, to reduce traffic accidents caused by human problems, advanced driving assistance technologies have been widely used to enhance the intelligence of vehicles. By reminding the driver or manipulating the car through actuators, advanced driving assistance technology greatly improves driving safety and comfort as well as frees the driver from heavy driving tasks.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
