

Special Issue

High-Performance Computing and Supercomputing

Message from the Guest Editor

This Special Issue on High-Performance Computing and Supercomputing of the journal *Applied Sciences* will focus on current trends and emerging technologies in the architecture of HPC systems, including data storage systems, interconnection networks, accelerators/coprocessors, and energy efficiency measures; task management and scheduling in HPC systems seeking to optimize performance and energy efficiency; novel uses of HPC with special focus on HPC–big data convergence; programming and run-time environments for HPC.

Guest Editor

Prof. Dr. Jose Miguel-Alonso

Department of Computer Architecture and Technology, The University of the Basque Country UPV/EHU

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
