

Special Issue

Advanced, Smart, and Sustainable Transportation

Message from the Guest Editors

The 8th International Conference on Traffic Engineering and Transportation Systems will be held in Dalian, China, on September 20–22, 2024. ICTETS 2024 invites the submission of substantial, original, and unpublished research papers regarding transportation systems, transportation planning, traffic control and information technology, controlling methods for logistics and supply chains, etc. This Special Issue will provide an opportunity for researchers to expand on the topics presented at ICTETS 2024 and delve deeper into the advancements shaping the transportation industry. By aligning with the themes of the conference, this Special Issue aims to facilitate knowledge sharing and collaboration among experts in the field, ultimately contributing to the development of a more efficient and sustainable transportation and logistics system.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
