

Special Issue

Innovative Applications of Big Data and Cloud Computing

Message from the Guest Editors

To explore the innovation service and practical systems, the Special Issue “Innovative Applications of Big Data and Cloud Computing” aims at the applications of core service design, platform implementation, data visualization, and future prediction using big data and cloud computing. We invite researchers to contribute their state-of-the-art experimental or computational results, and the topics of particular interest are as follows:

- Cloud System Design and Implementation.
- Core Service Design and Implementation in Cloud or Web Ecosystems.
- Front-End Service Design and Implementation in Cloud or Web Ecosystems.
- Big Data Analysis and Implementation in Cloud or Web Ecosystems.
- Big Data Visualization in Cloud or Web Ecosystems.

Guest Editors

Prof. Dr. Chao-Tung Yang

Prof. Dr. Chen-Kun Tsung

Dr. Neil Yuwen Yen

Dr. Vinod Kumar Verma

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
