

## Special Issue

# Innovative Techniques in Endodontics

### Message from the Guest Editor

This Special Issue is focused on innovating strategies for the diagnosis and clinical approach to the endodontic patient, including three-dimensional assessment of the pathologic conditions and the anatomical aspects of the endodontic space, and the development of new types of instrument and usage, with particular reference to thermal treatment and geometrical designs. Original articles, case reports, and reviews in the field of endodontics, which aim to enrich scientific knowledge and help not only clinicians, but also researchers involved in the development of new alloys, instruments, motors, and medicaments, are warmly welcome. **Keywords**

- Endodontics;
- Restorative dentistry;
- Endodontic radiology;
- Endodontic instrumentarium;
- Endodontic anatomy;
- Software-guided endodontics;
- Cone beam computed tomography;
- Nuclear magnetic resonance;
- Endodontic irrigants;
- Endodontic medicaments;
- Root canal treatment;
- Cyclic fatigue investigation;
- Torque investigation;
- Endodontic motors;
- Apex locators;
- Fractured instrument removal;
- Endodontic retreatment.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
