10th Anniversary of *Applied Sciences*: Invited Papers in Applied Dentistry Section

Message from the Guest Editor

Applied Sciences is going to reach a remarkable milestone by publishing its 10th volume, and in celebration of this special occasion, we have taken the initiative to launch a Special Issue called “10th Anniversary of *Applied Sciences*: Invited Papers in **Applied Dentistry** Section”. This Special Issue aims to gather moderate-sized original research or review papers featuring important and recent developments or recent progress in Dentistry with a special emphasis on new techniques and their applications. The authors are well-known experts in their domain who are invited to submit their contribution at any moment from now to the end of January 2021. The papers can cover either experimental or clinical aspects or both. The main topics, though not exclusively, include regenerative dentistry, dental materials, biomaterials, nanotechnologies, implantology, orthodontics, translational research in dentistry, operative dentistry, endodontics, interaction between oral and systemic diseases, oral medicine, and every subject related to Applied Dentistry.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
