Special Issue

10th Anniversary of *Applied Sciences* Invited Papers in Civil Engineering Section

Message from the Guest Editor

Applied Sciences has achieved a major milestone this year: It is the 10th anniversary of the journal. To celebrate this special occasion, we are launching a Special Issue featuring leading authors in Civil Engineering. It will be known as "The 10th Anniversary of Applied Sciences Invited Papers in the Civil Engineering Section". This Special Issue will consist of original research articles and comprehensive reviews. It will feature major advances in all areas of Civil Engineering. Authors who are well-known experts in their fields of study are invited to submit their contributions for this Special Issue up to the end of December 2020. The submitted papers can cover either experimental or theoretical aspects, or both, of all branches of Civil Engineering and its subdisciplines. Subject areas include (but are not limited to): Structural Engineering, Geotechnics, Hydrology, Environmental Engineering, and Transportation. We invite you to contribute a comprehensive review article or an original research paper for peer-review and possible publication in this Special Issue to commemorate the publication this year of the 10th volume of Applied Sciences.

Guest Editor

Prof. Dr. Eugene J. OBrien School of Civil Engineering, University College Dublin, D04 V1W8 Dublin, Ireland

Deadline for manuscript submissions

closed (31 December 2020)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
