

## Special Issue

# Innovative Technologies for Food Preservation and Processing

### Message from the Guest Editors

This Special Issue is dedicated to the processes that take place in the production and storage of food products. We welcome researchers in fields related to the mechanisms of food spoilage and spoilage prevention. Science is constantly evolving, and innovative methods are being developed for raw material processing. Food industry technology is also evolving, but all the experiments undergo testing in laboratories before being incorporated on an industrial scale. Innovative processing and storage methods aim to provide products with a wider range of preserved qualities and health benefits.

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
