

Special Issue

Machine/Deep Learning: Applications, Technologies and Algorithms

Message from the Guest Editor

This Special Issue focuses on new machine/deep learning algorithms as well as their applications in NLP, computer vision, and video processing in different fields of knowledge (medicine, industry, economy, society, environment, etc.). **Keywords**

- deep learning
- machine learning
- NLP
- artificial intelligence

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
