

Special Issue

Young Investigators in Advanced Drug Delivery

Message from the Guest Editors

We are pleased to announce a Special Issue titled “Young Investigators in Advanced Drug Delivery”. The Special Issue is a collection of manuscripts focusing on advanced drug delivery systems to improve the therapeutic efficacy of active compounds. Topics of interest include but are not limited to nanomedicine and nanotechnology, innovative drug delivery systems for target therapy, controlled release technology, tissue engineering and regenerative medicine, input on scalable manufacturing protocols, and in vitro and in vivo evidence. This Special Issue aims to highlight the outstanding contributions of young investigators in the field of advanced drug delivery systems. In this context, young researchers are encouraged to submit their latest findings. Review articles summarizing the reality of advanced drug delivery systems and current issues facing the drug delivery field are also welcome. The only requirement is that at least one young investigator (under 35 years old) is the co-author of the submitted manuscript.

Guest Editors

Dr. Antonia Mancuso

Department of Experimental and Clinical Medicine, University “Magna Græcia” of Catanzaro, 88100 Catanzaro, Italy

Dr. Gianpiero Calabrese

Department of Pharmacy, Kingston University, London KT1 2EE, UK

Deadline for manuscript submissions

closed (30 December 2023)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
