

Special Issue

Multimedia Smart Security

Message from the Guest Editors

The topic of this Special Issue is “Multimedia Smart Security”. Multimedia (e.g., text, audio, image, and video) has been used in many fields, such as science, engineering, medicine, and business. Editing multimedia maliciously leads to the deception of human eyes or neural networks, which poses a huge challenge to multimedia security. Today, machine learning is performing well in various fields and has developed into a popular cross-discipline. Therefore, ensuring multimedia security through machine learning has become a research hotspot in the academic world. We invite colleagues to submit research manuscripts on “Multimedia Smart Security”.

Guest Editors

Dr. Jinwei Wang
Prof. Dr. Chuan Qin
Dr. Xiangyang Luo

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
