

Special Issue

Technological Breakthroughs in Automation and Robotics

Message from the Guest Editors

Automation and robotics have seen unprecedented advancements in recent years, driven by technological breakthroughs and innovative applications. These advancements are transforming industries, enhancing efficiency, precision, and productivity across various sectors. Automation systems and robotic technologies are now integral components in manufacturing, healthcare, logistics, agriculture, and beyond. As we progress, the convergence of artificial intelligence, machine learning, and advanced sensor technologies is paving the way for even more sophisticated and autonomous systems. This Special Issue captures the latest advances and prospects in automation and robotics, providing a comprehensive overview of cutting-edge research, technological innovations, and emerging applications. We invite submissions of original research articles, review papers, and case studies that cover a wide range of topics related to automation and robotics. Potential topics include, but are not limited to, the following: Innovations in Automation Robotics Technology Advances Emerging Applications Industry 4.0 and 5.0 Future Prospects and Challenges

Guest Editors

Prof. Dr. Tugui Alexandru

Prof. Dr. Dana Danciulescu

Dr. Carlos Viegas

Deadline for manuscript submissions

20 October 2025

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
