## **Special Issue**

## Underwater Communication Networks

## Message from the Guest Editors

This Special Issue aims to showcase cutting-edge developments in underwater communication and networking, with a focus on the following key themes:

- Underwater communication technologies;
- Underwater acoustic network protocol design;
- Machine learning and AI for underwater communication networks;
- Security of underwater communication networks;
- Applications of underwater communication networks.

## **About the Journal**

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
