

Special Issue

Underwater Communication Networks

Message from the Guest Editors

This Special Issue aims to showcase cutting-edge developments in underwater communication and networking, with a focus on the following key themes:

- Underwater communication technologies;
- Underwater acoustic network protocol design;
- Machine learning and AI for underwater communication networks;
- Security of underwater communication networks;
- Applications of underwater communication networks.

Guest Editors

Prof. Dr. Ruiqin Zhao

School of Marine Science and Technology, Northwestern Polytechnical University, Xi'an 710072, China

Prof. Dr. Xiaohong Shen

School of Marine Science and Technology, Northwestern Polytechnical University, Xi'an, China

Deadline for manuscript submissions

20 January 2027

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
