5th Anniversary of 'Applied Biosciences and Bioengineering' Section—Recent Advances in Rehabilitation Engineering

Message from the Guest Editors

In celebration of the fifth anniversary of the Applied Biosciences and Bioengineering Section, we are pleased to announce a Special Issue entitled "Recent Advances in Rehabilitation Engineering." Rehabilitation engineering operates at the intersection of biomedical sciences and engineering, with a central focus on enhancing the quality of life for individuals with disabilities through innovative technological assessments and interventions. This involves a wide range of areas, from mobility and communication to hearing, vision, and cognition.

We invite submissions of original research, reviews, and case studies showcasing recent advancements in rehabilitative assessments, assistive technologies, prosthetics, mobility devices, adaptive software, and other innovative solutions designed to empower individuals with disabilities and improve their quality of life. We invite you to join us in celebrating the fifth anniversary of the Applied Biosciences and Bioengineering Section by contributing to this Special Issue, thereby helping shape the future of rehabilitation engineering.

Guest Editors

Prof. Dr. Calogero Foti

Physical and Rehabilitation Medicine, Tor Vergata University, 00133 Rome, Italy

Prof. Dr. Stefano Masiero

Department of Neuroscience, Rehabilitation Unit, University of Padua, 35128 Padua, Italy

Deadline for manuscript submissions

closed (30 June 2024)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
