

Special Issue

Selected Papers from Mat Science 2019

Message from the Guest Editors

The Mat Science 2019 aims to synthesize the breakthrough developments from the fields of chemistry, physics, materials science, and engineering to address genuine technology needs, while also considering the translational path from bench to bedside. Mat Science 2019 is an ideal setting for this endeavor. For three days, scientists, industrialists, and students with different backgrounds and expertise will convene to synergistically advance the field of materials science by presenting their latest research, attending stimulating workshops and symposia and having lively discussions during breaks and social events. We are confident that Mat Science 2019 will encourage these activities in the best possible manner.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
