

Special Issue

Medical Informatics and Data Analysis

Message from the Guest Editor

This special issue aims to bring together information on established statistical methods and new data analysis methodologies in biostatistics, epidemiology health sciences, dentistry and clinical medicine. Such resource would provide support for researchers at all levels in these fields, as well as students, publishing articles on a wide array of methods, how those methods should be applied, plus examples of application in practice. In summary, this Special Issue is an opportunity for the scientific community to present research on the application and complexity of data analytical methods and to give insight into new challenges in medical informatics and data analysis. Both original research and review articles are open to submission in this issue.

Guest Editor

Dr. Pentti Nieminen

Medical Informatics and Data Analysis Research Group, University of Oulu, P.O. Box 5000, FI-90014 Oulu, Finland

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
