

# Special Issue

## Multi-Agent Systems 2019

### Message from the Guest Editors

The purpose of this Special Issue is to make known some of the advances made in this paradigm and try to show the current state of this technology by analysing different aspects, as well as its possible application to various domains. This review of the current state-of-the-art is not intended to make an exhaustive exploration of all the current existing works, but rather to try to give an overview of the research in agent technology, showing the high level of activity of this area.

---

### Guest Editors

Prof. Dr. Andrea Omicini

Department of Computer Science and Engineering (DISI) Alma Mater Studiorum - Università di Bologna, 47521 Cesena, Italy

Dr. Stefano Mariani

Department of Sciences and Methods for Engineering, Università degli Studi di Modena e Reggio Emilia, 41121 Modena, Italy

---

### Deadline for manuscript submissions

closed (31 January 2020)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
