

Special Issue

Muscle Morphology: The Role in Human Body Performance-Functionality and Training Induced Adaptations

Message from the Guest Editors

Thus, the aim of this Special Issue is to address and highlight all the above issues, by bringing together original investigations and reviews with particular focus on the interactions between muscle morphology and human body performance and functionality, as well as between the training-induced adaptations of the above, in a wide range of populations including, but not limited to, athletes of various sports, sedentary individuals, and patients with body function limitations (like elderly, patients with muscle dystrophies, POMPE, etc). We welcome different types of manuscript submissions, including original research articles, systematic reviews, and meta-analyses, that provide novel and applied information-outcomes on this topic.

Guest Editors

Dr. Nikolaos Zaras

Sports Science Program, School of Life and Health Sciences, University of Nicosia, Nicosia, Cyprus

Dr. Spyridon Methenitis

Sports Performance Laboratory, School of Physical Education and Sports Science, National and Kapodistrian University of Athens, 57668 Athens, Greece

Deadline for manuscript submissions

closed (20 September 2022)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
