

Special Issue

Cardiac Imaging for Heart Disease

Message from the Guest Editor

In the last decade, cardiac MR and CT imaging has been significantly upgraded. In particular, the possibility of developing new MR sequences and new CT applications allows additional diagnostic information to be collected. To manage this amount of information, we need to adopt a scientific approach and conduct further research. Therefore, it is my pleasure to invite you to contribute to this Special Issue, "Cardiac Imaging for Heart Disease". Papers that focus on new diagnostic tools, diagnostic accuracy, cost-effectiveness and changes in clinical practice based on cardiovascular imaging will be considered. Reviews and systematic reviews will also be accepted.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
