

Special Issue

Virtual Models for Autonomous Driving Systems

Message from the Guest Editors

The Special Issue "Virtual Model for Autonomous Driving System" allows authors to publish open access papers on autonomous driving virtual systems and algorithms, including virtual environments, routes, infrastructure, and traffic models, simulation methodology and scenarios for connected vehicles, and collaborative driving integrated into intelligent transportation systems.

Guest Editors

Dr. Calin Iclodean

Prof. Dr. Dan Doru Micu

Prof. Dr. Bogdan Ovidiu Varga

Deadline for manuscript submissions

20 September 2025

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
