

Special Issue

(Nano)bioagrochemicals

Message from the Guest Editors

In this very wide context, we invite investigators to submit both original research and review articles that explore all these aspects. Potential topics include but are not limited to innovative natural products potentially exploited in crop protection, including their nanoformulations. Topics of interest include but are not limited to:

- Biopesticides
- Biomaterials
- Nanotechnologies
- Nanomaterials
- Nanostructured materials
- Nanoformulates
- Food safety
- Nanotoxicology.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
