Special Issue

Novel Approaches for Natural Product-Derived Immunomodulators

Message from the Guest Editor

Natural products are any molecule produced by a natural source and are the origin of many drugs used in modern human and veterinary medicine, there is a growing demand for novel drugs, especially in the face of major global health challenges such as antimicrobial resistance and limited efficacy of chemotherapeutics. This vast reservoir of natural biomolecules could be mined to reveal a plethora of new drugs needed to combat humanity's greatest challenges. In this context of this Special Issue, we invite authors to submit highquality original research articles, comprehensive review papers or short communications on Novel Approaches for Natural Immunomodulators. Research articles that address all aspects this field using a combination of different novel technologies or combinations of novel with conventional technologies are also welcome. keywords:

- natural products
- plants
- phytochemical
- bacteria
- insects and arachnids
- immunostimulant
- immunosuppressant
- biological response modifiers

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multidimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
