

Special Issue

New Trends in Fracture Mechanics and Fatigue Design

Message from the Guest Editor

Fracture mechanics and fatigue design are still very active research fields and, nowadays, new challenges in this field are necessary due to the introduction of new materials and new processes of production. This Special Issue aims to discuss these aspects, giving a clear and complete overview of the state of the art in these fields. New trends in fracture mechanics and fatigue design will be discussed along with the recent developments in innovative materials and innovative processes that are still under investigation. This Special Issue will not only be useful for researchers in these research areas but also for engineers engaged with advanced design problems.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
