

Special Issue

Non-destructive Testing in Civil Engineering

Message from the Guest Editors

This Special Issue aims to present to all those interested in the cognition and application of non-destructive testing, the latest achievements and experience regarding new research methods and their applications, the effects of the latest original scientific research, and the effects of utilitarian, laboratory, and field applications conducted in the area of civil engineering. We invite you to send original articles on topics including but not limited to: - new and improved non-destructive testing methods and techniques; - complementary applications of research methods; - original research methodologies; - analysis of non-destructive test results, including the use of sophisticated mathematical algorithms and artificial intelligence; - diagnostics of materials, elements, and structures, as well as entire buildings; and - unusual case studies in the field of non-destructive testing in civil engineering.

Guest Editors

Prof. Jerzy Hoła

Department of Building Engineering, Wrocław University of Science and Technology, 50-370 Wrocław, Poland

Prof. Dr. Łukasz Sadowski

Department of Building Engineering, Wrocław University of Science and Technology, Wybrzeże Wyspiańskiego 27, 50-370 Wrocław, Poland

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
