

Special Issue

Detection of Agrochemical Residues in Agriculture

Message from the Guest Editors

The title of this special issue is 'Detection of Agrochemical Residues in Agriculture'. The core focus of this special issue is on analytical methods for pesticides and organic compounds in agriculture, with an emphasis on mass spectrometry and residue testing. Not all manuscripts need to be composed of experimental results; we also welcome review articles and those using meta-analysis.

Guest Editors

Dr. Hyun Ho Noh

Residual Agrochemical Assessment Division, National Institute of Agricultural Sciences, Rural Development Administration, Wanju, Republic of Korea

Dr. Yongho Shin

Department of Applied Biology, Dong-A University, Busan 49315, Republic of Korea

Deadline for manuscript submissions

closed (20 July 2024)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
