

Special Issue

Advances in Dental Materials, Instruments, and Their New Applications

Message from the Guest Editor

We invite submissions for original research, reviews, and case studies exploring innovations in dental materials, instruments, and their novel applications. This Special Issue focuses on recent advances in the development, characterization, and clinical use of dental materials, instruments, and novel applications. Topics of interest include new restorative materials and instruments, adhesive technologies, dental ceramics, endodontic materials and instruments, and bioactive or antimicrobial materials and their applications. We also welcome studies on material performance, biocompatibility, and emerging applications in digital dentistry. This collection aims to highlight cutting-edge research that pushes the boundaries of dental science and enhances clinical outcomes.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
