

Special Issue

Oral Health and Environmentally Related Factors Associated with General Health and Quality of Life

Message from the Guest Editors

The relationship of oral disease to overall disease is certainly not a new concept. For centuries, the role of oral infection and inflammation in contributing to diseases elsewhere in the body has been studied and reported. During the last few decades, a series of intriguing reports from many countries have increased the current interest in the role of oral health and disease on contributing to general health and systemic conditions.

The aim of this Special Issue is to provide a current and thoughtful perspective on the relationship of oral and periodontal disease to systemic conditions and oral-related quality of life.

I especially welcome interventional and observational studies aiming at improving the knowledge of the effects of oral and periodontal diseases on systemic health and how oral and periodontal treatment improve the general wellbeing and quality of life. Review studies including those that use conceptual frameworks for any of the aforementioned topics will also be welcomed.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
