

## Special Issue

# Drying Technologies in Food Processing

### Message from the Guest Editors

The aim of this Special Issue of Applied Sciences is to present current original research articles as well as review articles focused on drying technologies in food processing with particular attention to osmotic dehydration process.

- drying
- osmotic dehydration
- traditional and innovative processes
- food quality
- shelf life
- functional products

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
