Editorial Board Members' Collection Series: Flavor Chemistry and Technology

Message from the Guest Editor

Dear colleagues, We are pleased to announce this collection, titled "Editorial Board Members' Collection Series: Flavor Chemistry and Technology". Flavor applications are an important function within both a flavor company and the food industry. This issue will be a collection of papers, and researchers invited by the Editorial Board Members. The aim is to provide a venue for networking and communication between applied sciences and scholars, as well as for the industry, on all aspects of flavors and related materials or technologies.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
