

Special Issue

Sport Physiology: Advances and Prospects

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include, but are not limited to, the following:

- Physiological determinants of elite athletic performance;
- Training load monitoring, fatigue, and recovery optimization;
- Exercise physiology for athlete health, injury prevention, and longevity;
- Applied technologies, modeling, and data analytics in sport physiology.

Guest Editors

Dr. Mario Lopes

School of Health Sciences and Institute of Biomedicine, University of Aveiro, 3810-193 Aveiro, Portugal

Dr. Argyris Toubekis

Division of Aquatic Sports, School of Physical Education and Sports Science, National and Kapodistrian University of Athens, 17237 Athens, Greece

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
