

## Special Issue

# Low-Temperature Plasma for Biomedical Applications

### Message from the Guest Editor

This Special Issue entitled “Low-Temperature Plasma for Biomedical Applications” intends to collect and diffuse both experimental and modeling research of low-temperature plasma for biomedical applications.

#### Keywords

- low-temperature plasma
- plasma generator diagnostics
- modeling
- cancer therapy
- sterilization
- blood coagulation
- wound healing
- plasma agriculture

### Guest Editor

Prof. Dr. Malika Benhenni

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
