Selected Papers from the 9th International Conference of Biotechnologies, Present and Perspectives

Message from the Guest Editors

The 9th International Conference of Biotechnologies, Present and Perspectives, which is organized by Ștefan cel Mare University, Faculty of Food Engineering, Suceava, Romania, is an excellent opportunity for experts, researchers, staff, and enthusiasts in food, agriculture, and biotech fields from around the world to share the latest advancements and future trends in biotechnologies and their applications in the food industry and applied engineering sciences, with a focus on food product quality, food safety, environment protection, and equipment for the food industry. Papers published in this Special Issue, "Selected Papers from the 9th International Conference of Biotechnologies: Current Advances and New Perspectives", should focus on recent advances in food biotechnology, applied engineering sciences, food safety and technology, ecology and environmental engineering, food quality, and equipment for the food industry.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
