

Special Issue

Novel Research on Radiotherapy and Oncology

Message from the Guest Editors

This Special Issue of *Applied Sciences* focuses on Novel Research on Radiotherapy and Oncology, aiming to showcase cutting-edge advancements and interdisciplinary approaches in cancer treatment. We invite contributions exploring innovative radiotherapy techniques, such as proton therapy, immuno-radiotherapy, and image-guided radiotherapy, as well as research on novel drug development, personalized medicine, and the integration of artificial intelligence in oncology. This Issue seeks to foster collaboration and knowledge sharing among researchers, clinicians, and industry professionals to improve cancer outcomes and quality of life for patients.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
