

Special Issue

Feature Review Papers in Section "Marine Science and Engineering"

Message from the Guest Editors

This Special Issue, "Feature Review Papers in Section Marine Science and Engineering", will collect review papers in all the areas of interest related to "Marine Science and Engineering"

(https://www.mdpi.com/journal/applsci/sections/marine_engineering). We welcome multidisciplinary research in the following fields:

- Marine Science: biological oceanography, chemical oceanography, geological oceanography, physical oceanography, marine ecology, marine biotechnology, marine resources, marine pollution, etc.
- Marine Engineering: naval architecture, ship propulsion, ocean structures (loading, stability, corrosion, anti-fouling), unmanned underwater vehicles, marine energy, coastal engineering, offshore oil, offshore structures, maritime systems engineering, etc.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
