

Special Issue

Applied Wood Science

Message from the Guest Editors

Wood science is evolving at a remarkable pace as researchers and practitioners increasingly bridge traditional knowledge with innovative, practical applications. This Special Issue is dedicated to showcasing pioneering research that translates fundamental wood science into real-world solutions. We invite submissions that emphasise the “applied” dimension of wood science, including, but not limited to, topics such as:

- Advanced Wood-Based Materials and Composites
- Structural Applications and Engineering
- Wood Processing and Conversion Technologies
- Environmental and Sustainability Aspects
- Cultural Heritage Applications
- Interdisciplinary Approaches

We look forward to your contributions and the opportunity to highlight transformative advancements in applied wood science.

Guest Editors

Prof. Dr. Alan Crivellaro

Department of Agricultural, Forest and Food Sciences, Università degli Studi di Torino, 10095 Grugliasco, TO, Italy

Dr. Flavio Ruffinatto

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
