

# Special Issue

## Advances in Galaxy Clusters

### Message from the Guest Editor

The science of galaxy clusters is entering a new era. Upcoming X-ray missions promise to provide important clues on galaxy cluster physics, from the chemical evolution of the intracluster medium to the non-thermal motions prevalent therein. The former will shed light on the origin of various elements, be it SNe Ia or SNcc, while the latter will test models of AGN feedback and will assess any biases that may enter the cosmological utility of galaxy clusters. Furthermore, upcoming radio projects will shed light on the high-energy particle content of clusters, as well as on the role of the magnetic fields that permeate their atmospheres. This Special Issue invites observational and theoretical papers in anticipation and in support of these upcoming developments.

### Guest Editor

Dr. Marios Chatzikos

Department of Physics & Astronomy, University of Kentucky, Lexington, KY 40506, USA

### Deadline for manuscript submissions

closed (28 February 2023)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
